

Gulf Syntrac 4T Synthetic 4-Stroke Motorcycle Oil

Product Description

Gulf Syntrac 4T series are synthetic, 4-stroke gasoline engine oil developed specifically to meet the special requirements of latest high performance air cooled 4-stroke motorcycles. It is blended from premium quality base stocks and advanced additive technology to exceed the most demanding lubrication requirements of modern 4-stroke motorcycles. It provides excellent protection to engine, gearbox and wet clutch used in 4-stroke motorcycles and ensures highest degree of reliability even under severe operating conditions. It is suitable for wide range of ambient temperatures. This oil meets the specifications of API SL, JASO MA (SAE 10W-40), MA2(SAE 5W-40) and the requirements of leading global 4-stroke motorcycle manufacturers.

Features & Benefits

- Outstanding thermo-oxidative stability minimises deposits and controls oil thickening facilitating extended engine and oil life
- Exceptional antiwear properties protect vital engine and gear components leading to reduced maintenance costs
- Controlled frictional properties eliminate clutch slippage leading to increased power/ fuel economy and improves drivability
- Special detergents/ dispersants used in this oil ensure cleaner pistons leading to faster heat dissipation and longer engine life
- Excellent shear stability maintains viscosity under high temperature-high shear environment and provides improved wear protection
- Outstanding low temperature properties enable easy starting at low ambient temperatures and ensure effective lubrication and wear protection at start up
- Low volatility characteristics reduce oil consumption and hydrocarbon pollution
- Effective rust and corrosion inhibition property ensures longer life of critical engine components

Applications

- Recommended for advanced 4-stroke gasoline engines in high performance motorcycles of leading global manufacturers operating in wide range of ambient temperatures

Specifications & Typical Properties

Meets the following Specifications		5W-40	10W-40
API SL, JASO MA		x	x
JASO MA2		x	
Typical Properties			
Test Parameters	ASTM Method	Typical Values	
Viscosity @ 100 °C, cSt	D 445	14.20	14.30
Viscosity Index	D 2270	163	154
Flash Point, °C	D 92	206	246
Pour Point, °C	D 97	-39	-33
TBN, mg KOH/g	D 2896	9.70	10.10
Density @ 15°C, Kg/l	D 1298	0.839	0.869
Sulphated Ash, %wt	D 874	1.21	1.26

September 2016

Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. The above information is based on past history of the grade only and must not be construed as a guarantee of performance. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available from your nearest Gulf Distributor.
