

PRODUCT INFORMATION

Engine Coolants (Ready to use)

Gulf Coolant 40

Product Description:

Gulf Coolant 40 is a modern 'British-Standard quality antifreeze composed of mono-ethylene glycol under addition of additives. **Gulf Coolant 40** can be used throughout the year in all cooling systems in petrol and diesel engines. Thanks to the balanced additives package and high quality mono-ethylene glycol, this standard quality antifreeze belongs to the highest quality in the market. **Gulf Coolant 40** needs be used undiluted. Only then the coolant gives a protection of -26°C.

Features/Benefits:

- Excellent protection of all hard metals in the cooling system and engine
- Neutral with regard to seals and flexible hoses
- Very good resistant against foaming

Warning : **Keep all antifreezes out of reach of children !!! Do not drink antifreeze !!!**
If swallowed, induce vomiting and immediately call a doctor !!!

Gulf Coolant 40 (Ready to use)	
PRODUCT CODE	6936
SPECIFICATIONS:	
BRITISH STANDARD BS 6580	SAE J 1034
AFNOR15-601	CUNA NC 956-16
ASTM D3306	

TYPICAL PROPERTIES:	
DENSITY @ 15°C, kg/m ³	1060
pH 33% in water	8
RESERVE ALKALINITY, ml	>8
CRISTALLISATION POINT	-26°C
COLOUR	Blue
